March 19, 2020

Due to the developing COVID-19 situation, Jerry Sibley Plumbing and Heating will be closing our office for two weeks starting March 23, 2020.

Our technicians will be available for emergency calls and can be reached at **970-827-5736**

We are aware that your plumbing and heating systems are critical for your personal comfort and your homes protection.

We are limiting as much contact as possible to help keep our community healthy and ensure our employees stay healthy and available for your plumbing and heating needs.

Our technicians have been advised of the current COVID-19 symptoms and measures for protection. They will be asking our customers if they are feeling under the weather and if so what their symptoms are before entering their homes. Please feel free to ask them about their wellbeing as well.

Jerry Sibley Plumbing & Heating has left it up to the technician's discretion to accept or deny service at any time if they feel unsafe for any reason.

We have implemented these temporary procedures to ensure we are helping to keep our teammates and community safe while still providing exceptional service to our wonderful neighbors.

Again, if you have a plumbing or heating emergency contact us at **970-827-5736 for 24/7 service**. We appreciate your patience and understanding during this time of crisis. Please feel free to reach out to me personally at 970-904-6029 if you have any additional questions or concerns.

From all of us at Jerry Sibley Plumbing & Heating, Stay Safe and Healthy.

Thank you,
Kristena Wyatt
